Event: A Special Gift: Wheelchair Donation for a Child in The Gambia

In a touching moment of compassion and community care, we were honoured to provide a **specially designed wheelchair** to a young child in The Gambia who was in need of this vital support.

Understanding the challenges of the local terrain, the wheelchair was **carefully selected and customised** to ensure comfort, safety, and durability, giving the child greater independence and the ability to move freely within their surroundings.

This small act of kindness represents something much bigger: the power of compassion and the difference we can make when we come together to support those in need. Seeing the child's smile and the family's gratitude was truly heartwarming and a reminder of why our charitable efforts matter so deeply.

We extend our sincere thanks to everyone whose generosity helped make this possible, together, we continue to bring hope, dignity, and joy to those who need it most.
