**Event: Supporting the Construction of a Masjid in Rural Sudan** (alandolus village, north Darfur)

In a beautiful act of faith and unity, we were humbled to contribute towards the **construction of a masjid in rural Sudan**, helping a community establish a dedicated space for worship, learning, and togetherness.

For many families in the area, this masjid represents more than just a building — it is a **place of hope, peace, and connection**. It will serve as a centre for daily prayers, Quranic education, and community gatherings, bringing people closer in both faith and friendship.

Seeing the joy and gratitude of the local community has been deeply moving. The foundations of this masjid were built not only with bricks and mortar but also with love, generosity, and the sincere intentions of everyone who supported the cause.

We extend our heartfelt thanks to all donors and well-wishers who made this project possible. Together, we continue to build spaces that nurture both faith and community spirit.
